

The Malaysian Coating Resins and Composite Group (MCRCG), operating as a product-group of the Chemical Industries Council of Malaysia (CICM) and its activities shall be governed by the Memorandum of Articles of Association of the CICM; and the following terms of reference:

#### **OBJECTIVES**

- i. To promote co-operation and co-ordination amongst coating and composite resins manufacturers in Malaysia;
- ii. To represent the interest of the Malaysia coating and composite resins industry in Malaysia and as a forum to promote discussion and exchange of views on issues of common concern to the industry and also ASEAN issues (including regional grouping, market expansion, trade related matters, etc.);
- iii. To liaise and to forward the Group's views to the government and other regulatory bodies on matters affecting the industry and to initiate the most conducive environment for the overall operation of the coating and composite resins industry in Malaysia;
- iv. To co-operate and pursue dialogue with any other Society or Association having objectives altogether or in part similar to the MCRCG and to procure from and to communicate to any such information as may be likely to forward the objectives of the coating and composite resins manufacturers in Malaysia;
- v. To accord industry's practices to responsible management of industrial health, safety and environment according to the Responsible Care Programme's Guiding Principles and Six Codes of Management Practices;
- vi. To disseminate correct information and to project a positive image of the sector as a safe industry managed by responsible stakeholders; and
- vii. To compile and share industry statistics amongst members of the Group and also with the relevant government ministries/ agencies.
