

### **Application for GS1 System – Category B**

Reference is made to the application submitted by your company for subscription to the GS1 System under Category B.

We would like to highlight that Category B was created for very small enterprises which have less than 10 products to be barcoded. Subscribers under Category B will be allocated only 10 GTINs (Global Trade Item Numbers) for the base annual fee of **RM371.00\***. In the event the company really requires more GTINs, additional GTINs may be allocated, subject to terms and conditions. The additional annual fee will be **RM190.80\*** per additional block of 10 GTINs. Hence, for example if a company requires 30 GTINs under Category B it will have to pay annual fees of **RM752.60 (RM371 + RM190.80 + RM190.80)\*** compared to a company under Category A which pays only **RM667.80\*** for an initial quantity of 1,000 GTINs. Please note that every different type of packaging, flavour and colour of product would require a different bar coded number.

Although your company may transfer the membership from Category B to Category A, your company will need to re-print and re-design your packaging labels to incorporate the new bar coded numbers under Category A. After the transfer, your company will not be able to use the previously assigned numbers under Category B and you **MUST** surrender the bar coded numbers of Category B back to GS1 Malaysia. You must also inform all your trading partners of the GTINs that have changed on the products.

Therefore, we advise your company to re-consider your application under Category B and inform us of your decision by signing back the reply, as listed below, to enable us to process your application.

**\*All prices indicated are inclusive of 6% GST**

Yours Sincerely,

Han Mong Ying  
GS1 Malaysia

I have read and have understood the above.

- I want to apply under Category A which provides 1,000 GTINs (bar coded numbers)
- I still want to apply under Category B which provides 10 GTINs (bar coded numbers)
