

Transforming the Industry

Date:
18 January 2017 (Wednesday)

Time:
8:30 am – 12:00 pm

Venue:
APW Bangsar 29, Jalan Riong
59100 Kuala Lumpur

Industry 4.0: The next industrial revolution

Industry 4.0, or the 4th industrial revolution, has the potential to transform Malaysia's manufacturing scene by reducing the reliance on manual labour, increasing yield and keeping exports competitive.

Join us on the **Wednesday, 18 January 2017** as we explore the possibilities of using the Internet of Things (IoT) and the cloud. **The Microsoft IoT Innovation Center team will be in KL exclusively for this event**, to share the innovations that manufacturers like you can use to achieve significant results.

If you have ever considered embarking on your own Industry 4.0 journey but found yourself unsure of where to start, this event is for you. We will be discussing the relevance of Industry 4.0 in Malaysia along with the impact of IoT on industry.

Local companies are already starting to get into Industry 4.0. **Jabil Malaysia**, an IT manufacturer based in Penang, uses machine learning, predictive analytics and the cloud to learn ahead of time when a piece of equipment might fail. Watch the case study for yourself on YouTube at <https://www.youtube.com/watch?v=bGVRH1Lfqe8>

Save time and money with Uber

Get RM20 off your rides to and from the event at APW Bangsar when you register!

A promo code will be given to you upon registration.
Valid on the 18 January 2017.

This event is organised by FMM and sponsored by Microsoft Malaysia Sdn Bhd under the FMM Business Promotion Package. FMM reviews requests by solution/technology providers for a platform to create awareness and market their products/services to FMM members. The FMM Business Promotion Package is offered when the solutions, technologies and products/services are deemed as useful and relevant in improving members' operational efficiency. Offering of the FMM Business Promotion Package however does not constitute as an endorsement by the FMM of the products, services or technology providers.
