

AIR MOVEMENT IN MANUFACTURING SECTOR

4:00pm - 7:30pm, May 3, 2018 at Traders Hotel, Kuala Lumpur

Stifling air? Moisture problem? Improving the process and environment have always been the top priorities of manufacturers, at no matter what climate.

Join us to learn and experience how introducing mechanical air movement can **eradicate problematic air quality issues, improve thermal comfort** for staff and customers, **lower your energy bills**, and even **boost your production capabilities**.

**FREE FOR
FMM
MEMBERS**

CASE STUDY: O'NEAL FLAT ROLLED METALS, TEXAS

Before Implementing Air Movement

- × Temperature & high humidity caused condensation build-up
- × Hazardous working condition
- × Write-off US\$ 28,000 annually on rusted aluminium

After Implementing Air Movement

- √ Eliminated excess moisture immediately with **added airflow**
- √ **Comfortable** working environment for employees
- √ **Savings** from writing off ruined aluminium

About Big Ass® Fans

Headquartered in Lexington, Kentucky, Big Ass® Fans design, engineer and manufacture massive overhead and directional fans that range in size from 45.7cm to 7.4m in diameter. Unlike typical fans, the fans couple energy-efficient motors with patented aerofoil designs, inspired by airplane wings, to move large volumes of air quietly and efficiently.

*no-show during the talk will be deemed ineligible.

FMM Industry Talk: Air Movement in Manufacturing Sector

4:00pm– 7:30pm, May 3, 2018 at Traders Hotel, Kuala Lumpur City Centre

SPEAKER

Brian Smith

Managing Director - APAC

Brian joined Big Ass® Fans 12 years ago and helped to grow the company from a small USA outfit into a successful international operation in 4 countries, including Kentucky and Texas in USA, Toronto Canada, Brisbane Australia, and Singapore. His primary areas of expertise are developing business in foreign markets, sustainability, general management, and application of energy efficient building products. He is LEED-AP certified and graduated from Pacific University (USA) in 2006.
