

Discover Unlimited Possibilities with Collaborative Robots

**March 6, 2018 (Tuesday)
8.30am - 5.00pm
Wisma FMM,
No 3, Persiaran Dagang,
PJU 9, Bandar Sri Damansara,
52200 Kuala Lumpur**

Collaborative robots (cobots) have revolutionised automation in this modern age of Industry 4.0. Working alongside human workers as a collaborative tool for business success, cobots can be deployed in a wide range of applications across industries without safety guarding (subject to risk assessment). The ease of use – lightweight, easy programming and flexible deployment – especially with cobots from Universal Robots is highly applicable to companies regardless of size. With a fast payback period, cobots are ideal, cost-effective choices that help Malaysian companies overcome production challenges.

Universal Robots invites you to join the one-day educational workshop and demonstration on deploying robots to work with employees. Register now to:

- Understand the latest and unique features of collaborative robots
- Discover the easy and quick set up to operate the cobots with 3D visualisation
- Learn the technical aspects for deploying collaborative robots
- Visualise plug & play end-effectors compatible with UR robots to start automating

WHO SHOULD ATTEND?

- CEOs, Managing Directors
- Business Owners
- Engineering & Automation Directors

Industry Focus: Automotive, Fast Moving Consumer Goods, Semiconductor, Electrical & Electronics Services, Electronics Design & Manufacturer, Medical & Pharma, Precision Engineering & Metal Parts, Plastic
