FMM - MNSC CERTIFICATE IN SHIPPING

COURSE CONTENTS

Module 1: Introduction and Overview

This session forms the foundation to all the aspects surrounding the topic of shipping. This session will help to expose participants to the most recent development in trade and economy and the roles of the shipping council in the country.

Module 2: Carriage of Goods By Sea

This module will provide knowledge on the shipping industry in general, types of shipping service, conference and general freight charges and most importantly, laws and rules relating to carriage of goods by sea.

Module 3: Carriage of Goods By Air

This module will explore the various aspects of carriage of goods by air, in particular the documentation, air cargo acceptance and valuation charges.

Module 4: Carriage of Goods By Land (Multimodalism)

This module will touch on the above issues and also the aspects of multimodalism in today's trade environment. The topics that will be covered are elements of transport of goods by road, licences, control and regulations, conventional trucker, multimodalism, organisation and responsibilities.

Module 5: Duties and Responsibilities of Freight Forwarders

This programme will help participants to understand the importance of freight forwarders, their roles and responsibilities so that certain criteria can be set to help in the selection of a freight forwarder.

Module 6: Packing and Marking

This programme will enable participants to acquire a greater understanding of the importance of packing, the special requirements and guidelines and the various types of packing for different modes of transportation.

Module 7: Banking for Shippers

This session will give participants the ability to assess the different methods of payment and incoterms, and the basic products offered by banks to finance importers and exporters.

Module 8: Laws and Practices Relating to Trade and Customs

This module will provide participants with all the necessary information on Customs legislation and procedures in order to ensure that all goods are imported/exported without violating any laws. Topics covered include the Guidelines on Customs (Prohibition of Import/Export) Orders 1988, Customs Documentation, Complete Warehousemen, Licensed Manufacturing Warehouse etc.

Module 9: Shippers' Cargo Insurance

This session will be beneficial to all Shippers as it covers all the elements of cargo insurance from the general principles to rights in claims. This session will enable participants to have a better understanding of the important elements of cargo insurance.
