

FMM Webinar on Energy Compliance, Efficiency & Conservation

AUG 23, 2022 (TUESDAY) | 8:45 AM - 5:00 PM | [zoom](#)

INTRODUCTION

This webinar covers the knowledge and the skills required to perform inspection, survey and analysis of energy flows to achieve energy efficiency and for energy conservation in a building/factory, process or system to reduce the amount of energy input into the system without negatively affecting the output. Briefing in energy compliance and management system will be highlighted to get an idea for setting up energy management team. Upon completion of this program, participants will be able to learn how to reduce energy cost, gain experience in energy management and preparation for organization in setting up energy systems that maintain effective energy compliance, efficiency and conservation.

WHY YOU SHOULD ATTEND?

- To understand the energy consumption of appliances and equipment in a building/factory.
- To understand the important of energy efficiency
- To analyse the energy bill history and determine the energy baseline.
- To identify the potential opportunities for energy conservation and energy efficiency.
- To implement energy savings and conservation
