

FMM INDUSTRIAL WASTE MANAGEMENT CONFERENCE 2019

**Policies Updates and Incentives
for Environment Sustainability**

**April 18, 2019 (Thursday)
Royale Chulan Damansara Hotel
Petaling Jaya**

Business communities need to keep abreast with policies updates and are encouraged to contribute towards the formulation of Government policies which concern them. Good Government policies should maintain a business environment with opportunities for growth and profits towards making Malaysia an attractive regional manufacturing and export base.

Incentives from Government are part of the policies that are designed to save companies time and money. These are particularly useful for companies with high operating costs. Incentives related to factory facilities can provide the resources needed to innovate or develop better products to stay competitive in the market.

Why you should attend this Conference

- Obtain updates on Zero Single-Use Plastics Roadmap 2018-2030, Clean Air Regulations 2014 and sustainability reporting;
- Discover incentives to support waste management initiatives in the factory;
- Learn how to utilise Government incentive effectively to start or upgrade factory facilities; and
- Network with industry leaders and environmental professionals.

4 CPD hours

**Approval number:
EiMAS/2019/CPD208/1**
