Balancing Standard Practice & Embracing Tech: IoT-Enhanced Process Manufacturing with Oracle NetSuite and Blend ERP

In an era where efficiency meets tradition, manufacturing stands at the crossroads of technological innovation and time-tested methods. This talk delves into the seamless integration of NetSuite's powerful ERP capabilities with the tailored features of Blend, specially designed for the **process-based manufacturing** sector. Highlighting **real-time data tracking, streamlined production, and enhanced batch management**, the presentation also emphasises the game-changing potential of **IoT and automation**. Attendees will gain insights into how the convergence of these technologies ensures safety, compliance, and superior quality in production.
