

BASIC SAFETY, HEALTH AND ENVIRONMENT AWARENESS

Trainer

Dr. Viswanathan Sankaran Nair holds a PhD in Safety and Environment (Major – Construction Safety) from Camden University, Delaware, USA. He also holds a Masters in Occupational Safety and Health and a Higher Diploma in OSH from the same university.

He has working experience of more than 32 years in various capacities and various countries. He has been a trainer since 1985 and has formulated 75 training modules and 30 training manuals.

Among others his specific achievements include presenting a paper on Contractor's Safety at Asia Pacific OSH Conference in Singapore in 1992. He also had established and coordinated Safety Health Environment Management for Contractors at Jurong Shipyard Singapore and coordinated Safety and Health Environment for large construction projects at Tg. Bin Power Station, Lafarge Cement Plants at Pasir Gudang and Rawang and Seagate Technologies' Substrate Plant in Senai.

His membership with professional organizations include Malaysian Institute of Training and Development, Malaysian Society for OSH, American Society of Safety Engineers, Australian Safety Institute (ASI) and World Safety Organisation (WSO).

Organised by:

FMM Institute
Sabah Representative Office
Lot 143, 1st Floor, Block Q
Alamesra Plaza Permai
Sulaman Coastal Highway
88400 Kota Kinabalu

SBL Scheme

This programme will introduce the participants to basic knowledge on occupational safety and health and environment (SHE) management system. In addition, it also focuses on the basic emergency response planning (ERP) and action during various emergencies, especially when fire occurs. A practical session on firefighting techniques will also be held.

Course Objectives

At the end of the programme, participants will be able to:

- ☑ Gain enhanced knowledge on "safe behaviour" and create safety, health and environmental awareness and consciousness among the workforce.
- ☑ Understand the basic requirements of Legislation in Malaysia and the employee's responsibilities under the various legislations.
- ☑ Learn the basic hazards and prevention methods at the work place, as well as the safety and environmental signage
- ☑ Understand Emergency and identify what actions should be taken when emergencies occurs.
- ☑ Participate in reducing accidents, pollution and losses; thus, increasing productivity and profitability for the company.
