Closing Date
17 Feb, 2017

CHEMICAL AND SCHEDULE WASTE HANDLING AND MANAGEMENT

HRDF Claimable

Date : 20-21 February, 2017

Time : 9.00 am - 5.00pm

Venue : Palm Seremban Hotel

INTRODUCTION

Chemical users/handlers are highly prone to hazardous chemical exposures. Hence, the implementation of Chemical Management in Workplace is essential. Consequently, they inadvertently generate Scheduled Waste after completing the chemical process.

There is a specified requirement on scheduled waste management. Employees have a 'Right-To-Know' of their exposure to all the chemicals and scheduled wastes involved, as stated in the Occupational Safety Health Act 1994, Environmental Quality Act 1974 and their regulations.

OBJECTIVES

Upon completion of this program, participants will:

- Have a better knowledge on the existing regulations on Hazardous Chemicals & Scheduled Waste .
- Be able to segregate chemicals properly during storage and usage

COURSE CONTENTS

Day 1

Introduction

- Safety as a Working Culture\
- What is your current chemical work-task & processes? & Plant inspection on chemical & scheduled waste-related areas
- What must employees know about the overall management of chemical & scheduled waste ?
- Chemical & Scheduled Waste—related legislation (Part 1)
~OSH (CLASS) Regulation 2013

- ~OSH (USCEHH) Regulation 2000
- ~Salient points on ICOP on Chemical Classification and Hazard Communication 2014
- ~Salient points on the Environment Quality Act (Amendment) 2012- on Competent Persons
- ~DOE (Scheduled Waste) Regulations 2005
- ~Guideline on Packaging, Labelling and Storage of Scheduled Wastes
- Chemical & Scheduled Waste—related legislation (Part 2)
- Understanding Safety Data Sheet & Information on Scheduled wastes
- Total Management on Chemicals & Scheduled Wastes (Cradle to Grave Concept)
- Requirements involved on Chemical & Scheduled waste vendors/contractors requirements
- including vendors selection, use of e-consignment note & auditing

Day 2

- Requirements involved for Trainings Contents & Chemical/ Scheduled Waste Risk Management
- the "right-to know" for employees
- Requirements on Overall Workplace Infrastructure, -building, transportation routes, warehouse area requirements
- The need for suitable Industrial Hygiene Program, Chemical Equipment & PPEs
- Requirements for Security/Warehouse personals and areas involved
- criteria to fulfil requirements upon receiving/shipment of chemicals/scheduled wastes of
- Requirements for handling, mixing, operations for hazardous chemicals and scheduled wastes generation
- The requirements testing, monitoring and recordkeeping

Trainer

Mr. Izil Kamal holds a MBA, B Eng (Hons.) in Chemical Engineering, Diploma in Industrial Chemistry and Certificate in Electrical Process Instrumentation . Currently, he is completing Master of Occupational Safety and Health Risk Management. He had also attended numerous Train-the-Trainer program from NIOSH & HRDC (PSMB) Train-the-trainer) and various risk, safety, technical and management skill trainings. He is also a IMS lead assessor and member of IChemE. He initially pursued his industrial careers with a tyre-making industry , then pursued a career in Electronics storage memory devices & Integrated circuit industries in Quality HR/EHS and Facilities departments. He had developed Behavior-based Safety program in his previous company, which involves counseling and strategizing towards Safety Workplace Culture and Self-motivated Leadership/Supervisory. Mr Izil Kamal has Soft skills, SS, EHS since 2000. He has also conducted audits/inspections and presented papers at seminars organized by government agencies and higher learning institutions. Currently he is one of the trainers for Certificate in Safety and Health Officer & Certificate in Executive Certificates courses at Federation of Malaysian Manufacturers (FMM) and a University Tutor .
