

Prevention is still one of the best methods against accidents at the workplace. However, even the best preventive efforts sometime fail and it is therefore prudent to prepare for such eventualities. It has been shown that proper initial handling of the accident victims contributes significantly to the final outcome and often determines if a life could be saved. This programme will impart the basic practical knowledge of First Aid and it includes a session on cardiopulmonary resuscitation (CPR).

C O N T E N T S

DAY 1

Trainer

Encik Rahman Basar holds a Diploma of Medical Assistant from the Ministry of Health in 1975. He started his career as Medical Assistant at Hospital Kuala Lumpur and has more than 18 years experience in the Accident and Emergency Department. Later he joined Q-mediac Academy as Chief Instructor. In 1996, he was promoted as Training Manager by the Promed Consultancy. Currently he is the Training Director of his own academy. His vast experience and knowledge in the field of medical emergencies, traumatology and life support has enabled him to manage and conduct numerous healthcare courses for various companies. He is also a member of the Malaysian Red Crescent Society (MRCS).

Certification

First Aid Certificate will be awarded to participants who achieve 75% attendance of the programme and pass both the Theory and Practical Examination. Participants who fail the Examination but achieve 75% attendance will only be awarded with the Certificate of Attendance.

Who Should Attend

This programme is specially designed for all the Management Staff, Supervisors, Production Workers and especially those in high risk category at workplace.
