JULY 21, 2026
TUESDAY

**9.30 AM –
2.00 PM**

DEWAN FMM
WISMA FMM
BANDAR SRI
DAMANSARA

As businesses navigate rising operating costs, evolving market expectations and increasing sustainability requirements, SMEs are presented with new opportunities to strengthen their competitiveness through green industrial development and sustainable business practices. This session will explore how SMEs can accelerate growth by adopting sustainable strategies, improving operational efficiency and leveraging available financial solutions and funding support. Participants will gain insights into current market trends, government initiatives and practical financing options designed to support business expansion, technology adoption and sustainability transition efforts.
