Why This Matters

The Johor-Singapore SEZ is a landmark bilateral initiative between Malaysia and Singapore that brings together Singapore's global connectivity and innovation ecosystem with Johor's land, labour and scale advantages.

For Singapore manufacturers, this means new opportunities to:

- Set up complementary operations in Johor to serve regional (ASEAN) and global supply chains
- Harness cost-, land-, and labour-advantages while staying connected to Singapore's tech/fin/innovation base
- Integrate advanced manufacturing, digital technologies (AI, IoT) and ESG practices from the outset

Who Should Attend

- Singapore-based manufacturing decision-makers exploring expansion or "twinning" operations in Johor
- Singapore and Johor-based manufacturing CIOs/CTOs/Heads of Digital Transformation interested in ESG, AI and Smart Manufacturing
- Government / industry stakeholders wanting to connect with the JS-SEZ ecosystem
- ERP / software providers, consultants, ecosystem partners looking at the JS-SEZ opportunity
