- Agriculture & Food Technology
- Future Foods
- Investment & Trade Services

OVERVIEW

The 12th Overseas Chinese Trade Fair (OCTF) & 2026 Asia-Pacific Industrial Cooperation and Global Expansion Expo is a premier international platform that connects industry leaders, innovators, investors, manufacturers, and business professionals from around the world. The event serves as a gateway for businesses seeking new opportunities in industrial cooperation, technology adoption, international trade, and global market expansion.

OCTF 2026 brings together two specialised exhibitions, the International Intelligent Technology Expo and the International Food Technology Expo, alongside a dedicated Investment & Trade Service Provider Zone. Through exhibitions, business matching sessions, industry forums, and networking activities, participants can explore cutting-edge technologies, establish strategic partnerships, and gain valuable insights into emerging industry trends and global business opportunities.

★ KEY HIGHLIGHTS

- AI, Robotics & Intelligent Manufacturing**
 Explore cutting-edge solutions in artificial intelligence, robotics, smart manufacturing and automation technologies.
- International Food Technology Expo**
 Discover innovations in food processing, smart catering technologies, agriculture technology and future foods.
- Business Matching Programme**
 Connect with verified suppliers, buyers, investors and strategic partners through targeted B2B meetings.
- Investment & Trade Opportunities**
 Explore cross-border collaboration, international market expansion and global business development opportunities.
