The Smart Manufacturing Scheme under NIMP CoSIF

On July 21, 2026, the Ministry of Investment, Trade and Industry (MITI) and Securities Commission (SC) has announced the **Smart Manufacturing Scheme**, together with enhanced co-investment ratios under the New Industrial Master Plan 2030's Strategic Co-Investment Fund (NIMP CoSIF).

NIMP CoSIF is a public-private co-investment scheme jointly established by MITI and the SC to support small and medium enterprises (SMEs) and Mid-Tier Companies (MTCs). It facilitates fundraising through Equity Crowdfunding (ECF) and Peer-to-Peer (P2P) financing platforms regulated by SC.

The Smart Manufacturing Scheme is designed for eligible companies undertaking smart manufacturing transformation, supporting businesses pursuing automation, Industry 4.0 adoption, digitalisation and other productivity-enhancing initiatives.

The new scheme features an NIMP CoSIF-to-private investment **ratio of 2:1**, whereby the **Government, through NIMP CoSIF, will contribute RM2 for every RM1 successfully raised** by the eligible company through participating ECF or P2P financing platforms. This enhanced ratio will be available until 2030.
