Cik Lee Kar Yan, Executive, FMM Perak Branch
Puan Kokilavaani A/P Ravindran, Executive, FMM Perak Branch

1.0 Chairman's Address

The Branch Chairman, Encik Chua Kay Lin, delivered his address and highlighted the increasingly challenging business environment faced by manufacturers during the financial year, driven by rising operating costs, regulatory changes, supply chain pressures and global economic uncertainties. He shared that the Branch had remained proactive in engaging with Federal and State Government agencies, utility providers and local authorities to advocate members' concerns, particularly those affecting SMEs, and to seek practical solutions to issues impacting the manufacturing sector.

The Chairman also emphasised the Branch's continued efforts in facilitating industry-government collaboration, addressing infrastructure and utility-related matters, and supporting members in navigating regulatory and business challenges. In addition, he noted the Branch's active participation in Industrial Park Management Committees (IPMCs), which serve as an important platform for resolving issues affecting industrial areas through constructive engagement with the relevant authorities. The Chairman also reported on the activities undertaken by the Branch during the financial year 2025/2026. The text of his address is attached as Annex 1.

2.0 To receive and adopt Report of the FMM Perak Branch Committee for the financial year ended June 30, 2026

The FMM Perak Committee's report for the financial year ended June 30, 2026, was adopted at the proposal of Encik Tan Seow Heng of Sidney Industries Sdn Bhd and seconded by Tuan Haji Zulkepli Bin Haji Hussin of PMW Concrete Industries Sdn Bhd.

3.0 To transact any other business of which proper notice has been given

No notice of any other business was given.

There being no other business, the meeting adjourned at 9:50 am with a vote of thanks to the Chair.

Annex 1

FMM Perak Branch 58th Annual General Meeting
October 21, 2026
Chairman's Address and Report

Good morning and Salam Madani and Salam Perak Sejahtera.

Ladies and Gentlemen,

A very Good Morning and Warm Welcome to our 58th Annual General Meeting.

The 2025/2026 financial year was marked by an increasingly complex and demanding business environment, requiring manufacturers to navigate rising operating costs, regulatory changes, supply chain pressures and uncertainties in the global economy. The prolonged conflict in the Middle East added further pressure on Malaysian manufacturers, particularly through disruptions to shipping and supply chains, higher freight and energy costs and constraints on the availability of certain industrial inputs.

Against this backdrop, FMM Perak Branch remained focused on supporting members, representing industry concerns and strengthening engagement with key stakeholders. The Branch continued to adopt a practical and solution-driven approach in addressing issues affecting the manufacturing community, ranging from infrastructure and utility services to regulatory compliance, trade facilitation and the overall business operating environment.

Ladies and Gentlemen,

Throughout the financial year 2025/2026, the Branch maintained active engagement with both State and Federal Government agencies to bring members' concerns to the attention of the relevant authorities and seek practical solutions. Particular attention continued to be given to issues affecting small and medium-sized enterprises (SMEs), which often face greater challenges in adapting to changing regulatory and operating requirements. These engagements reinforced FMM Perak Branch's role as an important bridge between industry and Government, ensuring that members' views and operational challenges were effectively communicated to policymakers and the relevant authorities.

The Branch also continued to strengthen its engagement with key government agencies, including the Malaysian Investment Development Authority (MIDA), the Ministry of Investment, Trade and Industry (MITI), SME Corporation Malaysia, InvestPerak, the Perak State Economic Planning Division (UPEN) and the Perak State Development Corporation (PKNPk). Through these engagements, members were kept informed of important policy and regulatory developments, available incentives and business opportunities. The Branch also served as a vital link between members and the relevant agencies, facilitating dialogue, clarifications and access to support programmes. These collaborative efforts have enabled businesses to navigate an increasingly complex operating environment while identifying opportunities for growth and investment.

Infrastructure and utility-related matters remained an important area of focus. FMM Perak Branch continued its engagement with Tenaga Nasional Berhad (TNB) on power quality issues raised by members, while collaboration with Telekom Malaysia (TM) focused on addressing internet connectivity challenges in industrial areas and improving broadband infrastructure and service reliability. The Branch also engaged with Lembaga Air Perak (LAP) on water quality concerns affecting industries, particularly in the Manjung and Taiping areas.

At the local government level, the Branch remained actively involved in Industrial Park Management Committees (IPMCs) under various local authorities. Co-chaired by FMM representatives and officials from the respective local councils, these committees provided an effective platform for industries to raise infrastructure, maintenance and municipal service issues affecting industrial areas and to work directly with the relevant authorities towards practical resolutions.

Ladies and Gentlemen,

The Branch also strengthened its engagement with key regulatory and Government agencies through a series of courtesy visits and technical discussions. A courtesy visit to PERKESO Perak provided an avenue for members to engage directly with PERKESO on the Lindung 24 Jam initiative and related enquiries. Courtesy visits were also made to the Mayor of Ipoh and the Director of the Department of Labour (JTK) Perak, further strengthening the Branch's working relationships with the Ipoh City Council and Perak Labour Department, respectively.

In addition, FMM Perak Branch participated in a technical discussion with the Fire Safety Division of the Fire and Rescue Department of Malaysia (JBPM), Perak, which provided greater insight into the latest fire safety and compliance requirements affecting industry, including requirements under the Fire Services Act 1988 [Act 341]. The engagement enabled the Branch to better understand emerging compliance requirements and facilitate the timely dissemination of relevant information to members.

In parallel with its advocacy and engagement efforts, the Branch continued to place strong emphasis on knowledge sharing and capacity building to help members respond effectively to evolving regulatory and business requirements. During the financial year 2025/2026, the Branch organised a total of twenty (20) seminars and webinars, complemented by one hundred and fourteen (114) training programmes conducted by FMM Institute Perak Branch.

The seminars and webinars focused on pertinent developments affecting businesses, including e-Invoicing implementation, stamp duty, taxation and compliance matters, the National Budget, as well as the latest updates on PERKESO schemes. These programmes provided members with greater clarity on new and evolving requirements, practical guidance from subject matter experts and relevant information to better prepare their organisations for regulatory changes.

Ladies and Gentlemen,

In conclusion, we wish to extend our sincere appreciation to the State Government Departments and Federal Government Agencies, including the PKNPk, UPEN, MITI, MIDA, SME Corporation, InvestPerak, LAP, TNB, Telekom Malaysia, Royal Malaysian Customs Department, Perak and the Local Councils for their close cooperation, constructive engagement and continued support of FMM Perak Branch throughout the year. Their strong partnership has contributed significantly towards the Branch's efforts in advancing the interests of the manufacturing community in Perak.

I wish to express my deepest appreciation to all members of the Perak Branch Committee for your dedication, commitment and perseverance in serving the interests of our members. The achievements of the Branch over the past year are a testament to the collective efforts, professionalism and teamwork demonstrated by each of you.

I would also like to thank the Chairpersons and members of our Working and Regional Committees for their invaluable contributions in championing industry issues, fostering engagement and providing practical insights from the ground. Your efforts have strengthened our ability to represent the voice of industry effectively and ensured that our members remain connected, informed and supported. As we move forward, I am confident that our continued collaboration will enable us to address emerging challenges and seize new opportunities for the benefit of the manufacturing community.

"*The challenges before us may evolve, but so too does our ability to adapt, innovate and succeed. Let us continue to stand together as one manufacturing community, united by a common purpose and driven by a shared commitment to the sustainable growth and success of industry in Perak and beyond."*

Thank you.

Chua Kay Lin, A.M.P.
Chairman
Federation of Malaysian Manufacturing (FMM) Perak Branch
